---

Mr Sujit Majhi (1999-2003 batch) is now a Ph.D student in IARI. He is suffering from "Syringomyelia", a disorder in which a cyst or cavity forms within the spinal cord. His two legs are paralysed due to this disease. He might need a surgery for the treatment which requires around 2-3 lakhs of money. Now he is in BBSR. I think we the CACians should contribute some money for his surgery/treatment. Plz publish this shocking news on CACALUMNI site and open a bank account so that people can donate money if they want to. Sujit bhai's mobile no-09968700370.
